Technical Commissioning of the New RIO Mall

This June 21, a new RIO shopping and entertainment centre was commissioned at 109 Leninsky Avenue, Moscow. With 75K sq m GBA, the official opening is scheduled for late August, 2013. Tashir Group is the project investor and consultant.

The mall located at the crossing of the first building row of Leninsky Avenue, a key artery of Moscow, and Obrucheva Street, will generate daily traffic of 30 to 35 thousand people, experts suggest. The district the mall is located in is officially inhabited by over 2.2 million people. The object can be directly accessed from Leninsky Avenue and Obrucheva Street, making it perfectly visible and accessible.

The new RIO's advantages stretch far beyond unique location and architectural solutions to feature mirror façades. Ground and underground parkade and perfectly planned tenant space zoning will ensure the guests can shop and have fun comfortably. The new RIO will be both a shopping enthusiasts Mecca and a territory visitors of all ages can come to and find an entertainment to enjoy.

The new RIO in Leninsky Avenue has gathered about 140 tenants under its roof, those including 120 stores and restaurants and 20 convenience goods and services. The project's investments total 180 million dollars. With the new RIO added, the number of operational malls in Tashir Group's portfolio will reach 27.
